

Donghwa Kim – Frontend Developer

Email: devmemorydh@gmail.com

LinkedIn: <https://www.linkedin.com/in/devmemory>

GitHub: <https://github.com/devmemory>

Frontend Developer with 3.5+ years of experience building scalable, high-performance web and mobile applications. Specializes in **React, TypeScript, WebRTC**, and **data visualization**. Strong focus on **real-time communication**, performance optimization, and intuitive, maintainable UI/UX.

Skills

- **Frontend:** React, Next.js, TypeScript, Zustand, Redux, HTML, CSS, Tailwind
 - **Visualization:** D3.js, JointJS, Chart.js, Three.js
 - **Media/Streaming:** WebRTC, HLS, FFmpeg
 - **Backend & DevOps:** Node.js, Express, Docker, NGINX, GitHub Actions
 - **Mobile:** Flutter, Dart
-

Experience

Luxrobo – Frontend Developer

Mar 2024 – Apr 2025. 1.2 years

- Built WebRTC-based CCTV streaming platform using H.264 & Opus codecs.
 - Developed a web-based PCB CAD editor with JointJS (2D) & Three.js (3D).
 - Established internal component library and CI/CD pipeline (Docker, GitHub Actions).
 - **Highlights:** Delivered a parking management system in 3 months; built PCB Logic Editor prototype in 5 months; improved dev efficiency by **30%**.
-

Gaon Platform – Frontend Developer

Mar 2023 – Sep 2023. 7 months

- Joined during a key transition period to stabilize and maintain real-time data systems.
 - Replaced inefficient polling with WebSocket for improved responsiveness.
 - Built AI-powered analytics dashboards using Highcharts & D3.js.
 - Collaborated with backend team to integrate external services and optimize load handling.
 - **Highlights:** Reduced server load, improved dashboard UX, and ensured system reliability during active service.
-

Lexynaptics – Frontend & Mobile Developer

Jun 2022 – Dec 2022. 7 months

- Built a WebRTC-based video consultation platform for legal services.
 - Integrated legal diagnosis flow, lamPort payment system, and DaumPost address search.
 - Improved performance by **50%** using Vite, lazy loading, and bundle optimization.
 - **Highlights:** Delivered MVP for investor pitch meetings with full responsive support.
-

Reindeer – Frontend & Mobile Developer

Apr 2021 – Jun 2022. 1.3 years

- Led the full renewal of the app from **v2 to v3**, focusing on UI/UX modernization and codebase refactoring.
 - Boosted app performance and maintainability through architectural improvements.
 - Developed a custom Kakao Map library for Flutter (open-sourced, adopted by 100+ apps).
 - Enhanced performance by optimizing widget structure and video handling.
 - **Highlights:** Achieved a **10+ FPS performance boost**, published a reusable map library, and delivered a more user-friendly app experience.
-

Projects

PCB 3D Viewer – <https://devmemory.github.io/gerber-3d-viewer>

- Parsed Gerber files and rendered 3D PCB layouts using Three.js.

Personal Portfolio – <https://devmemory.github.io/#!/portfolio>

- Built a custom web portfolio to showcase projects, experiments, and UI/UX creativity.

Kakao Map for Flutter – https://pub.dev/packages/kakaomap_webview

- Open-source Kakao Map library for Flutter; **used in 100+ apps**, rated with **27+ likes**.
-

Education

B.S. in Electrical, Electronic & Control Engineering

Kongju National University (2010 – 2017, incl. military service)

Certifications

- **OPIC (English)** – Intermediate High (Oct 2018)
